Veto Message Erroneous

(Continued from page 326)

achieved a balanced budget but it is our hope that by holding expenditures from each appropriation to a minimum we can keep our expenditures even with the revenues received by the State from present taxation.

But the new biennial budget omits from the assets of the State several million dollars on hand in the treasury. H.B. 153 appropriated less than a million of these millions on hand.

It would certainly be a sounder method of approaching this problem to consider State aid to needy high schools along with State aid to grade schools—all such appropriations to be made from the distributive or common school fund.

This evidently means that only "needy high schools" shall receive state funds, and they only from the $13,000,000 a year specified in the new budget for appropriation to the common school fund for the next biennium.

For the reasons I have above stated, I veto and withhold my approval of House Bill No. 153.

Respectfully submitted,

HENRY HORNER, Governor of Illinois.
